PROFILE

Passionate computer science graduate with a strong foundation in software development and a keen interest in web development. I am eager to apply my technical skills in building innovative, user-friendly websites and applications. With experience in Front-end technologies like HTML, CSS, and JavaScript, as well as a growing proficiency in frameworks such as React.js, I am committed to continuous learning and staying updated with the latest industry trends. Ready to contribute to a dynamic team and create impactful digital experiences.

PROJECTS

Pharmaceutical Track

A comprehensive Point of Sale (POS) and Inventory Management System tailored for the unique needs of a local community pharmacy. The objective of this is to replace the traditional sales and inventory method with a digital POS and Inventory System.

- Developed a web application using HTML, CSS, JavaScript, PHP, and MySQL.
- Implemented a digital POS and Inventory System to replace the traditional sales and inventory method.
- Repo: github.com/miggysndco/pharmaceutical-track

SEMINARS

- Importance of Data Privacy in the Modern World
- Cybersecurity Awareness & Digital Literacy
- Technical Symposium on Robotics, Automation and Data Science in partnership with STMicroelectronics
